

**SCOTTS BLUFF COUNTY SHERIFF'S OFFICE & R.I.D. TRAINING**  
PRESENT

# **UNDERSTANDING CANNABIS DUI/DWI**

**"COMBATING THE HIGHWAY HIGH"**

## **November 9<sup>th</sup>, 2017**

**Harms Advanced Technology Center  
2620 College Park, Scottsbluff Nebraska**

The training is geared towards providing the street officer with advanced training on how to detect, detain, and process drivers impaired by cannabis. The 8-hour course will not provide officers with a Drug Recognition Expert (DRE) level of proficiency, but it will enhance first responder's ability to recognize and assemble evidence. It is not an effort to circumvent DRE involvement. It promotes calling a Drug Recognition Expert and gives the officer the ability to provide the Drug Recognition Expert with more evidence. This training will give the officer more tools to build a case against the impaired driver and boost the officers confidence to arrest the impaired driver even if a Drug Recognition Expert is not available.

## **FREE TRAINING**

**FOR LAW ENFORCEMENT & PROSECUTORS**

**PRE-REGISTRATION REQUIRED AS SEATS ARE LIMITED**
