

# Identifying and Communicating with Latinos Quickly and Effectively

Officers should be able to communicate with everyone they serve. Street Cop Spanish is an award-winning course developed by cops for cops. This course gives officers the tools to communicate, control, identify, and most importantly be safe when encountering a Spanish speaking subject.

Unlike other Spanish courses, Street Cop Spanish does not claim to make officers fluent in Spanish in just a few days. Instead, a practical and applicable course of study and materials help officers identify and communicate with Spanish-speaking subjects upon completion of the course. This training helps officers get through a Latino contact with the use of English and Spanish.
