

RADAR RECERTIFICATION

The Nebraska Law Enforcement Training Center has developed a self-paced Radar Recertification Course. This course is available on CD-ROM.

The Training Center will no longer conduct regional training for Radar Recertification. Agencies may request a CD-ROM to be sent to them. There is no cost to the agencies for the CD-ROM.

The CD-ROM lets an officer complete Radar Recertification in approximately two hours. The course is broken down into eight modules that may be taken individually. After the successful completion of the training the officer can print out his own certificate.

For more information, contact the Training Center at 308-385-6030.
